

Sebastián David Meneses Sánchez

Brisbane, Australia • +61 410 639 477 • meneses321@hotmail.com

PROFESSIONAL SUMMARY

Full Stack Web Developer with almost 5 years of experience across frontend and backend development, focused on building modern, scalable, and well-integrated web applications. Frontend has always been my core strength, complemented by hands-on backend, API, and infrastructure experience. I currently lead the development area at VASEprint, where I built Vasetec, a multi-tenant SaaS platform, from the ground up.

PROFESSIONAL EXPERIENCE

Frontend Developer, Antpack S.A.S

Jan 2022 – Jul 2026

Bogotá, Colombia

- Built and shipped several individual and team projects using React.js and Next.js, including a teleprompter-based video recording app, an inventory management system, online stores, and headless websites (Strapi/WordPress) for streamlined content management.
- Designed and built REST APIs with Node.js and Nest.js, implementing authentication, authorisation, error handling, caching, and email delivery following best practices.
- Integrated third-party applications and REST APIs, including workflow automation with n8n, to improve and speed up processes for different clients.
- Contributed ideas for solving technical problems and proposing new product features.

Tech Lead, VASEprint S.A.S

Jan 2025 – Present

Socorro, Colombia (remote, from Brisbane)

- Continue to lead the company's development area, created in 2025, remotely from Brisbane, from planning through execution, building full-stack products with Next.js and Nest.js, including Vasetec, a multi-tenant SaaS platform for service management.
- Manage server infrastructure (VPS) and Docker-based deployment for both internal and client projects.
